Math 210 - Dr. Miller - Activity #7: Number Sentence Terminogy

1.	Use whole numbers to make up a number sentence that satisfies each condition below. (The parts are SEPARATE from each other.) If not possible, say so.
	(a) 8 is a minuend, and all three numbers are different.
	(b) 20 is a factor, and two of the three numbers are equal.
	(c) 15 is a divisor and 5 is a dividend.
	(d) The addends have a product of 40.
	(e) The subtrahend is bigger than the difference.
2.	Which role can the number 0 NOT take on in a division sentence?
