Name:

Major: (Math majors, please give special interest area too)

Freshman, Sophomore, etc.:

What are your career goals?

I can look up your math grades, background, etc., but tell me about a college-level math course you especially liked, and why. (1-2 sentences)

Give a brief self-assessment of your overall math background and abilities, especially regarding abstract concepts such as explanations or proofs.

Are you working during the semester? If so, how many hours per week?

Are you commuting to campus from outside Slippery Rock? If so, from where?

Other than the above items, are there any considerations that could affect your attendance/performance in this course? (I.e., extra-curricular activities, child care issues, military service, work responsibilities, health issues, etc.)
